WEB DEVELOPER

Driven and talented web developer with a solid background in web technologies and practical expertise gained from a variety of projects. Looking for possibilities to contribute to creative development teams and utilize my expertise and creativity to create dynamic, user-friendly web applications.

TECHNICAL SKILLS

- **Programming Languages:** HTML, CSS, JavaScript, Java
- **Web Frameworks:** ReactJS, ExpressJS, NodeJS, Bootstrap, TailwindCSS, Spring Boot
- **Database Management:** MySQL, PostgreSQL
- **Version Control:** GIT and Github
- **Tools:** Visual Studio Code, Postman, Figma

PROJECTS

Personal Portfolio Website

Description: Developed a responsive personal portfolio website to showcase projects and skills using ReactJS.
Key Features: Responsive design, interactive elements, integration with social media profiles
Link: https://github.com/TiempoAllen/portfolio.git

Campus Sync

Description: Developed a comprehensive system for campus announcements and event management. Users can add announcements and events, while admins can manage posts. Created using ReactJS for the front end, MySQL for the database, and Spring Boot for the back end.
Key Features: User authentication and authorization, CRUD operations for announcements and events, Notifications for new announcements and events
Link: https://github.com/TiempoAllen/campus-sync.git

CITU Streamlined Service Portal

Description: Designed and developed a system where users can request various types of technicians, including janitors, electricians, and plumbers. Built with ReactJS for the front end, PostgreSQL for the database, and a back end using Spring Boot and ExpressJS.
Key Features: User-friendly interface for service requests, Role-based access control for users and administrators, Comprehensive reporting and analytics
